

CCOUC 15th Anniversary Public Forum

EBOLA DISEASE: A GLOBAL HUMANITARIAN SYSTEM IN CRISIS

**DR. JAVID
ABDELMONEIM**

MSF INTERNATIONAL
PRESIDENT

The Democratic Republic of Congo (DRC) faces an Ebola disease epidemic, which is the second largest in history. With no effective therapeutic treatment or vaccine, how is Médecins Sans Frontières (MSF) responding to this current outbreak?

Join this in-person forum to explore the humanitarian challenges in the midst of conflict, substantial cuts in humanitarian aid, and the need to scale up fast enough to match the speed of the crisis. Explore the public health activities in case management, surveillance, diagnosis, and community engagement.
